

Insight into the spirit and methods by which turn of the century arts and crafts pottery was made is the inspiration behind Ephraim Faience Pottery. Lost to the machines of the industrial revolution was the intimacy and aesthetics of wheel thrown hand decorated pottery. In protest intuitive craftsmen of that day began to integrate the serenity of nature back into their designs. This led to a beauty and harmony between pottery form and richness of glaze never before or again seen.

It was not long after these designs originated that other companies decided they could make the pottery faster and more profitably by using the slip cast mold method. Some of the original Arts and Crafts potteries went out of business, and others followed the new production trends, creating mass produced pottery, thus losing their individuality. The uniqueness and depth of the original hand thrown, hand decorated pottery was once again being lost to the industrialization of our country.

Ephraim Faience Pottery once again celebrates the revival of honest individually made art reminiscent of this era. From the hands of the potter to the craftsmanship and beauty of our glazes, we simply want to deliver the finest art pottery you own today.

Because of the hand thrown, hand decorated nature of our art pottery and to ensure that the value and collectibility remains high, we are limiting our pottery to a maximum quantity of 500 pieces per form. The form then will be retired and another beautiful piece will appear in a supplement mailer.

**Pottery Care:** We do not recommend adding liquids to the interior of any art pottery, new or old. In order to protect the life of your faience pottery and your furniture from water damage, we suggest that a protective floral liner and drip pan be used if you wish to display live flowers.

Since each piece is hand thrown, decorated and glazed slight variations among pots will occur, contributing to the individuality and character of every Ephraim Faience art pot.
